RE: NYSIF 2011-21 NYC/Hempstead HVAC Preventive Maintenance

**Addendum #3**  
**NYSIF Responses to Bidder's Inquiries**

- (1) I am hoping to get a revised or up graded equipment list.  
A: Revised equipment list has been posted (Addendum # 2).
- (2) On page 6 are all the equipment listed to be included in exhibit #1 ?  
A: Page 6 is simply a summary of the mechanical systems at the location. The equipment to be maintained is detailed in Addendum # 2 - Exhibit 1, revised equipment list.
- (3) We already electronically filed the New York State Standard Vendor Responsibility Questionnaire on New York State Controller Online Service do we still have to fill out your attached questionnaire or can I submit the one from online?  
A: You may submit on from online. NYSIF reserves the right to require additional or updated information upon complete review of previously submitted Vendor Responsibility forms.
- (4) The NYS Contract Reporter shows MBE requirement 20%, and WBE requirement 20%. Is that correct 20% EACH? Please clarify.  
A: NYSIF's goal is that 20% for both together. Total M/WBE goal is 20%.

All affected portions of the original Agreement are superseded as described herein and the addendum will become part of the RFP as Addendum # 3, and will also become part of the ensuing contract for these services.
