July 14, 2026

The following (Q&A) will serve as Amendment #1 to NYSIF's Request for Proposals (RFP) for Terrorism Risk Modeling Services, bid number 2026-39-INS. Material in this Amendment supersedes any contradictory material in the RFP.

Please note that the due date for the submission of bids remains unchanged.

All bids are due August 3, 2026, by 2:00 p.m.(eastern).

Sincerely,

A handwritten signature in black ink, appearing to read "Kolby Carpenter", with a stylized flourish at the end.

Terrorism Risk Modeling Services RFP 2026-39-INS Amendment 1				
Question	RFP Page #	RFP Section and Sub-Section Reference #/Heading	Question	NYSIF Response
1	14	2.1. #2	These questions suggest NYSIF is looking to directly license a model from a terrorism modeling company. Would it be acceptable to respond as a vendor and third-party who licenses other terrorism models? This would not provide desktop access to NYSIF; rather, we would run the models and provide output and related consulting services which would be detailed in our RFP response. Alternatively, would it be acceptable to respond via a joint venture with one of the established terrorism modeling companies?	NYSIF has internal expertise in running terrorism models and assessing terrorism risks. Currently, we prefer directly licensing from modeling companies for the following reasons: 1. to minimize the risk of data breach through data sharing with multiple external contacts; 2. to avoid inappropriate use or misuse of modeling software; 3. to streamline communication should questions arise in regard of the modeling software and its assumptions and methodologies.
	15	2.2. #2 and #5		
	132	Appendix Z		
2	14	2.2	Will data be provided at this time for modeling in order to demonstrate the range of outcomes across vendor models?	Data will not be provided. Vendors are expected to demonstrate their understanding of exposure concentrations in common terrorism risk zones and their capability to supplement the data not typically collected by workers' compensation insurers.
