

REASONS TO BE MORE CAREFUL AT WORK

We have a responsibility to ourselves not to get hurt.

We have a responsibility to our families. Injured employees cannot provide for their loved ones.

We have a responsibility to the company. Injuries have a negative impact on the well-being and productivity of the entire workplace.

Unsafe behavior endangers our co-workers.

Injuries lead to increased insurance costs. If costs rise too much, loss of pay raises and jobs may result.
